

## Durasil

Durasil is a silicone resin emulsion paint specially formulated for the protection of external masonry surfaces. It possesses enhanced durability through high UV resistance. The finished paint film is water-repellent yet permeable enough for water vapour to pass through, thus allowing the surface to breathe.

### Characteristics

<b>Resin</b>	Silicone	
<b>Type</b>	Water-based	
<b>Finishing</b>	Matt	
<b>Application</b>	Roller or Brush	
<b>Painting System</b>	<b>3-coat System</b>	<b>3-coat System</b>
