

Duflon 4F II Fresh

Duflon 4F II Fresh is a fluorocarbon coating, one of the toughest coating resin types in existence. Incorporating air-cure technology in place of conventional thermal curing, it is ideal for the protection of concrete and masonry substrates against carbonation by forming a barrier. It is also able to better deliver gloss and colour retention relative to conventional emulsion coating.

Characteristics

Resin	Air-cured Fluorocarbon (4F)	
Type	Solvent-based	
Finishing	Gloss	
Application	Roller, Brush, Airless Spray	
Painting System	2-coat System	2-coat System
	1 coat Hi-Pon 20-03	1 coat Hi-Pon 30-03
	1 coat Duflon 4F II Fresh	1 coat Duflon 4F II Fresh

Accelerated Test Performance

Test Item	Test Method	Results
Sunshine Weather 'O' Meter 4000 Hours	JIS K5658.7.7	> 80% Gloss Retention
Humidity (50°C x 98% RH x 1 month)	JIS K56007.2	Passed
Salt Spray Test (SST) 1 Month	JIS K56007.1	Passed
